

Afghan/Pakistan border waypoint name changes

David Mumford
8 December, 2017

Afghanistan has changed a bunch of waypoint names on its border with Pakistan today. If you're flying that way, you'll need to know these for when you submit your Pakistan permit - they only approve permits for specific entry/exit points.

Old Waypoint name	New Waypoint name	Connecting Airway
KOTAL	IMTIL	A455(LOWER)
SABAR	DUGIN	G206 (LOWER & UPPER)
PADDY	MOTMO	P500 (UPPER)
ROSIE	BIROS	L750 (UPPER)
PAVLO	DOBAT	N644 (UPPER)

For more details, check out the full AIP AIRAC AMDT [here](#).

Overflight advice for Afghanistan averages out at a minimum FL250, though as with other mountainous countries we think FL320 is a better starting point. For Pakistan, the consensus among foreign authorities is to cross the OPLR/Lahore and OPKR/Karachi FIR's at higher flight levels. For full details check out safeairspace.net

If you want to know exactly how to get your landing or overflight permits, check out our [Permit Book](#), which tells you how to get a permit for each and every country in the world!
