

Afghan/Pakistan border waypoint name changes

David Mumford
8 December, 2017

Afghanistan has changed a bunch of waypoint names on its border with Pakistan today. If you're flying that way, you'll need to know these for when you submit your Pakistan permit - they only approve permits for specific entry/exit points.

Old Waypoint name	New Waypoint name	Connecting Airway
KOTAL	IMTIL	A455(LOWER)
SABAR	DUGIN	G206 (LOWER & UPPER)
PADDY	MOTMO	P500 (UPPER)
ROSIE	BIROS	L750 (UPPER)
PAVLO	DOBAT	N644 (UPPER)

For more details, check out the full AIP AIRAC AMDT [here](#).

Overflight advice for Afghanistan averages out at a minimum FL250, though as with other mountainous countries we think FL320 is a better starting point. For Pakistan, the consensus among foreign authorities is to cross the OPLR/Lahore and OPKR/Karachi FIR's at higher flight levels. For full details check out safeairspace.net

If you want to know exactly how to get your landing or overflight permits, check out our Permit Book, which tells you how to get a permit for each and every country in the world!
