International Ops Bulletin

Europe: Most GA/BA aircraft now exempt from next year's Datalink Mandate

The [original plan](#) was for datalink to be required for **all aircraft** operating in Europe **above FL290** from 5 Feb 2020. But now it looks like [most GA/BA aircraft](#) will be **exempt** from this.

Africa: Hajj 2019 routes now in operation

The [Hajj routes](#) will be in effect from now through to Oct 9. Across the northern half of Africa, there will be a **big increase in flights operating east-west**, [crossing the normal flow](#) of north-south traffic between Europe and Africa.

You can request membership of OPSGROUP to receive the full version delivered every Wednesday, along with **all OPSGROUP member benefits: Members Questions**, Group Discussions, Free maps and charts (normally \$25), Full access to **Airport Spy** for group reviews of handlers and airports, **regular alerts** for critical international ops info, Complimentary Airports Database (normally \$375), Full access to **safeairspace.net including updated risk alerts**, and guidance and help when you want it on any International Operations topic (that last one is really useful!).

YOUR PUBLICATION IS THE BEST I'VE SEEN IN MY 40+ YEARS IN THIS INDUSTRY.
