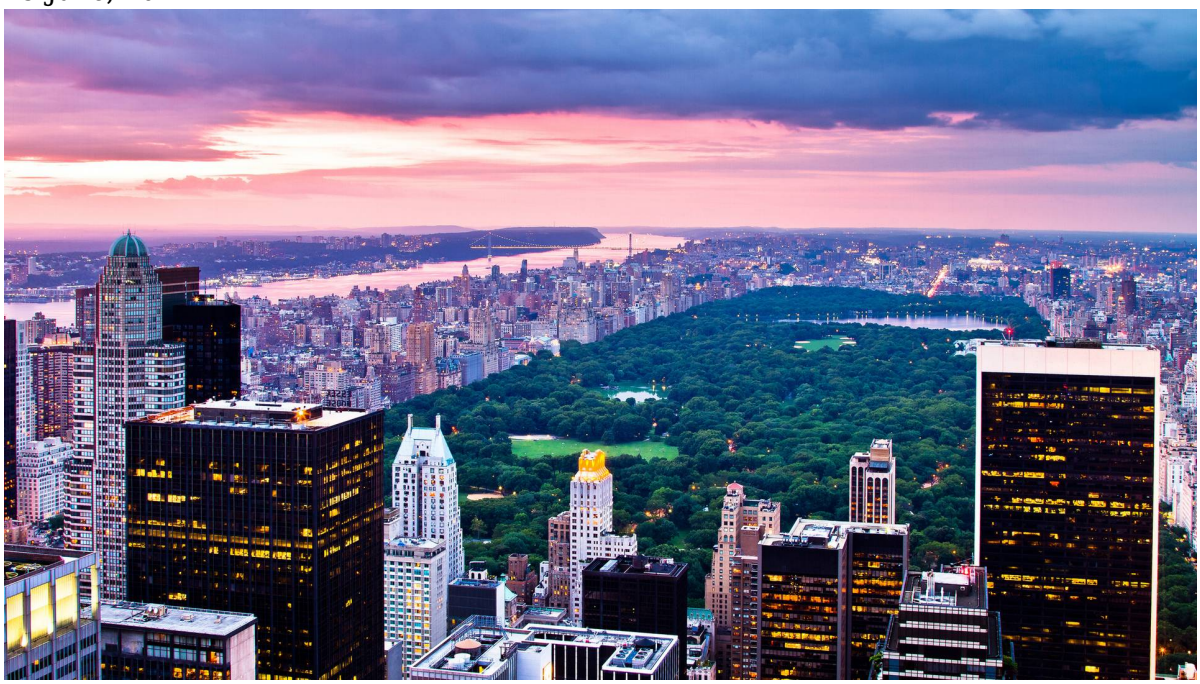
Enhanced Security – new rules for US Inbounds

Declan Selleck
29 June, 2017



KZZZ/USA The US has opted for ‘Enhanced Security’ instead of a wider laptop ban. In fact, the existing ban is likely to end once airports can comply with the new rules. The information in the official DHS release is somewhere between vague and zero, which kind of makes sense.

So, the story is pretty simple – there is no wider laptop ban, but no specifics have yet been released publicly as to what exactly ‘Enhanced Security’ means for Aircraft Operators. The DHS will work directly with larger AO’s directly affected.
