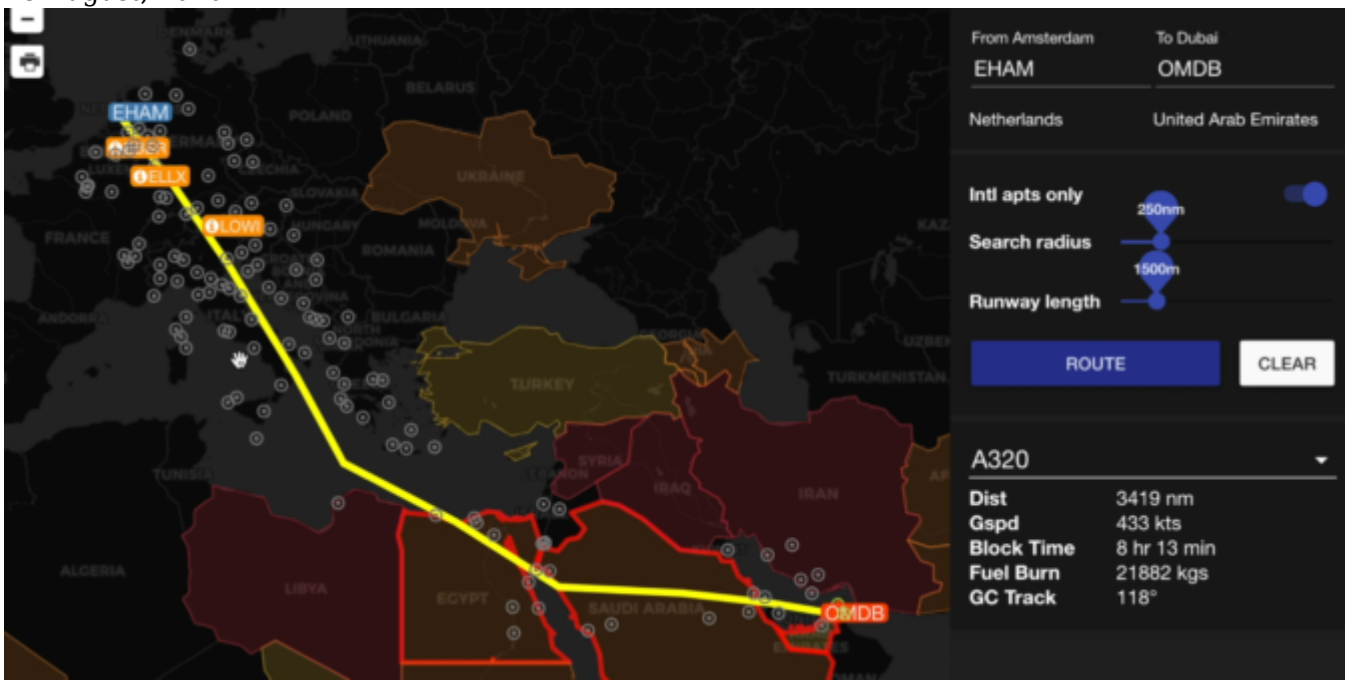
GoCrow planning map – 2020 update!

Mark Zee
18 August, 2020



Hi again members!

There's a new version of **GoCrow** – the OpsGroup route analysis and planning map...

There's some cool new stuff:

- **SafeAirspace warnings** are now on the map, you'll see them very clearly. Click on a country for more info.
- All OpsGroup **Alerts** will show on the route
- **Permit information** is fed directly from the Permit Tool in your dashboard
- New underlays – all kinds of maps
- You can print a **route briefing**.

All of this is still in beta, there are still a few bugs and some design issues to work out, but it's pretty solid. Have a play with it! **Watch the video** above to get a better idea of what it can do.

GoCrow is here: https://ops.group/dashboard/gocrow/

Comments welcome!
