

# What do you Sphinx about this new airport?

OPSGROUP Team  
22 June, 2018

We love new airports ... and we have a cool one tell you about in Giza, Egypt - known as **Sphinx International Airport (SPX, HESX)**!

It looks like it's undergoing a **"soft"** opening of sorts. Word from handlers we have spoken to on the ground confirm it's **open for business** (for the most part).

Here is the info we have so far:

- ICAO code: **HESX**
- IATA code: **SPX**
- PCN: **87**
- Runway dimensions: **3650M x 60M**
- The airport is open from **Sunrise to Sunset. No night lighting installed** as yet.
- There is **no CIQ** yet. But it's coming soon - so it's not an airport of entry presently.
- Airport features a general and business aviation terminal, with its own dedicated CIQ unit. **The VIP terminal and Royal Lounge are open. A complete fleet of GSE is in place.**

- **Jet A1 Fuel is available** via Misr Petroleum Company tankers. No Hydrant System yet.
- Airport features **8 parking stands** currently.
- Most likely the airport will be **slot coordinated** preserving control on capacity until the new terminals launch.
- **Night stop parking is accepted** with a requirement to re-position aircraft to parking bays after passengers disembark.

Some extra info from the local agent:

*"The airport has already launched, but not in its full capacity as the contracted constructor is still finishing up the exteriors. In addition the check-in software has not been installed, meaning commercial schedule flights haven't started yet. However **the airport is accepting business and general aviation flights during opening hours and with pre-notification of 48 hours.**"*

Parking spots are well equipped and overnight parking is possible. The airport is only seeing a handful of movements at present and is not busy.

The airport is best suited for those wishing to visit Cairo West or Giza City with the expected launch of commercial flights on 30 June.

Have you landed there yet? Let us know if you have any updates.

*p.s. Fun fact- The Great Sphinx of Giza when translated from Arabic to English means: The Terrifying One; literally: Father of Dread. So.....Safe landings ☺*

## **Midweek Briefing 06JUL: Hong Kong capacity problems, Iceland: The fun**

# continues

Cynthia Claros  
22 June, 2018

## INTERNATIONAL BULLETIN

ISSUED BY FLIGHT SERVICE BUREAU

SITA HNLFSXH AKLFSXH AFTN KMCOXAAL  
EMAIL INTL.DESK@FSBUREAU.ORG

**Hong Kong capacity problems** 06JUL During this year, the Hong Kong CAA has issued a couple of warnings to operators to stick carefully to their allocated slots, but it's not making much of a difference to operations there. Read the article.

**Iceland: The fun continues** 06JUL Last week there were some really positive indications that the ATC strike in Iceland was coming to an end, but it's now worse than ever, with Westbound, Eastbound, and landing traffic all affected. Read the article.

---

**HECC/Cairo FIR** A restriction exists for traffic to and from the Amman FIR, so if overflying Jordan and then Egypt, or vice versa, you can only use the waypoint METSA.

**OMAE/Emirates FIR** has some updated peak times. Departures need a slot between 0630-0730Z and 1700-0000Z. Arrivals will be spaced 5 mins apart during these times also, as will aircraft entering the OMAE FIR from nearby airports like Muscat, Isa, and Baghdad.

**EIDW/Dublin** Runway 10/28 is closed overnight until 09JUL.

**OERK/Riyadh, Saudi Arabia** will be hosting the 'Global Ministerial Aviation Summit' 29AUG-31AUG. 55 different ministers from various countries are expected to be in attendance. Be aware of potential restrictions leading up to and after the event.

**CYFB/Iqaluit** Another NAT alternate favourite, CYFB has some runway closures throughout July.

**EGCC/Manchester** is doing some work on 05L/23R overnight until 08JUL and has advised operators to carry some extra gas due possibility of holding.

**LOWW/Vienna** has published a helpful list of rush hour periods - worth avoiding these times as holding is common at VIE. The times are: 0530-0750, 0920-1030, 1140-1240, 1340-1500, 1615-1800, and

1840-1940Z.

**BIZZ/Iceland** Despite optimistic reports of a resolution to the ATC dispute in Iceland last week, the situation remains unresolved. Last night BIRD Oceanic was closed to most Eastbound traffic once again, as was BIKF. A new addition to restrictions is a closure to many Westbound flights on Wednesday 06JUL – “DUE TO STAFF SHORTAGE IN REYKJAVIK OACC WESTBOUND TFC PLANNING TO ENTER BIRD FROM ENSV VIA GUNPA, VALDI, IPTON, INGAL, ISVIG AND EGFX VIA LIRKI, GONUT, OLKER, MATIK AND RATSU AND THEN PROCEEDING INTO EGGX OR CZQX SHALL REMAIN SOUTH OF BIRD CTA” Read the article.

**EDYY/Maastricht** ATC have requested crews operating through the Maastricht UIR to log on to CPDLC EDYY, if you have datalink. While voice remains the primary comms method, you might get an uplink message if the frequency is busy – it's not a test, you should confirm – most of these uplinks are likely to be frequency changes.

**EPZZ/Poland** has advised operators to check carefully whether permission is required in advance of operations at airports other than EPWW/Warsaw. Many countries including Poland have reinstated Border Controls within the Schengen zone. Best advice is to treat each country as having full Border Controls for the moment (so think Passport, GenDec, etc.)

**SPIM/Lima FIR** (Note that the airport is now SPJC, distinct from the FIR code) is shutting down airway UG427 after 21JUL.

**SUEO/Montevideo ACC** (Uruguay) has some comms issues in its airspace, and has advised of some extreme spacing between aircraft irrespective of FL – 40nm. For now, this ends today (06JUL) but may happen again.

**WSZZ/Singapore** Qualifying citizens of Singapore are now eligible to apply for US Global Entry membership – and benefit from expedited entry to the United States at designated airports. Similarly, qualified U.S. citizens are eligible for enrolment in Singapore's enhanced-Immigration Automated Clearance System (eIACS).

**ZMUB/Ulaanbaatar, Mongolia** is downgraded to RFF Cat 7 until 10JUL. Also, from 12-16JUL, you can't file this as an alternate which may limit your options somewhat.

**LFPG/Paris** due to maintenance on the ILS for Runway 08L/26R from 18JUL to 02OCT. The only approaches that will be available will be RNAV based procedures (LNAV/VNAV, LPV, LNAV) and VOR/DME.

**GQNN/Nouakchott, Mauritania** has moved to a new international airport this June. Located approximately 10nm north of the city, it has an annual passenger capacity of 2 million. Infrastructure from the capital's old airport was transported to the new one.

**SECU/Cuenca** Following the landing incident on 28APR of an E190, all inbound flights will be reportedly be held if the runway is wet – until end of August.

**LFMH/St Etiennee** Fuel outage on 07JUL, 0800-1100 UTC.

**Canada/Mexico** From 01DEC2016, Mexican nationals will be able to travel to Canada without a visa for business and tourism for up to 90 days.

**Turkey/Russia** Russia has lifted the travel restrictions on tourists between the two countries. The ban was put in place following the downing of a Russian military aircraft last year.

**Bangladesh** Germany, Australia and the U.K. have banned direct cargo flights from Bangladesh due to security concerns.

**Israel/China** The Israeli parliament has ratified a multiple-entry visa agreement with China, under which

Chinese business visitors and tourists can enter Israel multiple times with the same ten-year visa and vice versa.

**EZZZ/Europe** the European Union updated **Air Safety list** (aka the Airline Blacklist) on 17JUN, and lifted a ban on Zambian air carriers.

**Uganda** Introduction of 'e-visa' system. You must show a valid yellow fever vaccination certificate on arrival.

**ZJSA/Sanya FIR, China** has an ADS-B trial up and running on L642 and M771. Radar is still the primary separation tool, but ATC ask that you check your Flight ID matches your FPL.

## GPS Jamming at Cairo

Declan Selleck  
22 June, 2018

Egypt notified airlines yesterday that GPS jamming is a concern to arrivals and overflights, and warned against conducting RNP/RNAV arrivals or approaches.

The jamming was announced on 24MAY, and is centred on Cairo Airport; the source is unknown.

Similar GPS jamming was conducted, at state level in that case, by North Korea last month, from five locations along the border with the South. South Korea, along with other Civil Aviation Authorities, are looking at an eLORAN based alternative as a backup.

Operators planning flights through the Cairo FIR should monitor NOTAMs for latest.

---

# Monday Briefing: North Atlantic OTS Changes, Indonesia Volcano Eruption

Declan Selleck  
22 June, 2018

<b>INTERNATIONAL BULLETIN</b>	<b>ISSUED BY FLIGHT SERVICE BUREAU</b>
	SITA HNLFSXH AKLFSXH AFTN KMCOXAAL EMAIL INTL.DESK@FSBUREAU.ORG

**North Atlantic OTS Changes this week** 09NOV This Wednesday (12NOV) sees the implementation of the new NAT Track OTS, marking the first change to the lateral structure since the tracks were introduced in 1965. New requirements include RNP4, and 24 new Oceanic Entry Points come into effect. See below for further.

**Indonesia Volcano Eruption** 09NOV Operations into WADD/ Denpasar, Bali continue to be disrupted due to ongoing eruption of Mt. Rinjani on Lombok Island. Also affected are nearby WARB/Blimbingsari and WADL/Lombok.

---

**EINN/Shannon FIR** CPDLC service is withdrawn on the evening prior to implementation of the new NAT Track system, voice service only from 1715Z onwards on 11NOV.

**LGGG/Athens FIR** Strike of Greek Radio Operators (thereby including AFTN messaging, and AFIS) announced this morning for 12NOV. Overflights will not be affected. Full details [here](#).

**HESH/Sharm el-Sheikh** remains open but subject to multiple advice notices from international Authorities. Many airlines have cancelled operations into the airport after increasing suspicions that a bomb was loaded here onto the A320 which crashed into the Sinai Desert.

**HLLL/Tripoli FIR** Libya has issued updated advice regarding airport availability - HLLQ, HLTQ and HLZW are only available for international arrivals, daylight hours only. PPR and Permit is required prior operations.

**SCFZ/Antofagasta ACC, Chile.** Crews on Airways UL780 and UL302 are requested to inform ATC of any speed changes greater than .02 Mach; if unable on VHF, use HF 10024. The procedure is to ensure separation between succeeding aircraft operating on CI speeds.

**SBXX/Brazil** The Brazilian Grand Prix takes place 13-15NOV making Sao Paulo operations at SBSP/Congonhas, SBGR/Guarulhos, and SBKP/Campinas busier than usual.

**RPLL/Manila, Philippines** APEC 2015 Summit being held 17-20NOV. Check restrictions, many commercial flights have been suspended during this period. Parking at a premium. Consider quieter alternates such as RPLC/Clark.

**YXXX/Australia** Australian Border Force strike commencing midnight 09NOV across Australian airports. As a result, departure and arrival processing at Australian airports may take longer than usual.

**WADD/Denpasar, Indonesia** Operations here continue to be disrupted due to ongoing eruption of Mt. Rinjani. Also affected are nearby WARB/Blimbingsari and WADL/Lombok. For updates monitor [http://www.bom.gov.au/products/Volc\\_ash\\_recent.shtml](http://www.bom.gov.au/products/Volc_ash_recent.shtml)

**LIXX/Italy** Possible ATC strike on 14NOV 1200-1600Z announced.

**KXXX/US** Airport Runway closures: BWI-RWY 10/28 CLOSED SEA-RWY 16C/34C CLOSED LAS-RWY 7L/25R CLOSED

**KLAS/Las Vegas** NBAA 2015 will take place 17-19NOV limiting airport capacity.

**HECC/Cairo FIR, Egypt** Point PASOS (LCCC FIR) is again available in both directions for flight planning. Please be aware flights departing OLBA via LCCC must file via VELOX-PASOS. Also see HECC NOTAM 1A277/15 and 1A278/15 for flight planning guidance.

**VHHH/Hong Kong** Arrival and Departure delays up to 30 minutes can be expected due to a flight check and maintenance on RWY 07L/25R on 09NOV 0530-0100 and 10NOV 2300-0100.

**Caribbean** Tropical Weather Advisory Shower and thunderstorm activity is showing signs of organization in association with a low pressure system located just north of the Turks and Caicos and the southeastern Bahamas. A tropical depression or a tropical storm is likely to form on Monday while the low moves west-northwestward to northwestward near or over the central and northwestern Bahamas. For further details see National Hurricane Center

**KLAX/Los Angeles** Due to military operations of the coast of LAX there is a risk of arrival delays and reroutes during the overnight periods until Nov 12th.

**MWCR/Grand Cayman** may be forced to shorten the runway at Owen Roberts International Airport (MCWR/GCM). The runway, which was extended to accommodate long-haul flights, may have to be shortened in order to accommodate a 400 ft/124 m safety area. An extension of the runway cannot be further extended, and the airport authority is examining all options.

**CYYQ/Churchill** has amended opening hours 1200-2200Z M-F.

**PKWA/Bucholz** has revised ATC hours from 01NOV, 0800-1230 and 1330-1600LT.

**NWWW/Tontouta** has a main runway closure 09-12NOV at various times, some daytime. Check NOTAM 1543/15.

**EGPF/Glasgow** is closed overnight 22NOV-11DEC for runway and taxiway repairs.

**DRRR/Niamey** Ouagadougou ACC is now operational H24 again; the previously implemented contingency

plan for traffic operating outside ATC service hours is withdrawn.

**View the full International Operations Bulletin for 09NOV2015.**

## Monday Briefing: Sinai Airspace avoided, Low Vis creates day of chaos

Declan Selleck

22 June, 2018

INTERNATIONAL BULLETIN	ISSUED BY FLIGHT SERVICE BUREAU
	SITA HNLFSXH AKLFSXH AFTN KMCOXAAL EMAIL INTL.DESK@FSBUREAU.ORG

**02NOV2015** HECC/Cairo has requested that traffic through PASOS point on the boundary with LCCC/Nicosia FIR be rerouted, effectively closing airway UL550 and the Sinai peninsula. Shown on radar image above, most traffic is avoiding the area that an A321 crashed in on Saturday. No definite link is being made but Authorities and Operators are naturally cautious.

**02NOV2015** Conditions perfect for fog across the UK and western Europe are causing widespread delays this morning. Unusually, almost all airports from EGCC/Manchester to EDDF/Frankfurt are affected by the same conditions, with many airports down to 100 metres vis. Most not accepting diversions. See below for further.

---

**EXXX/Europe** High delays in most Airports in a square containing EGCC/Manchester, EBBR/Brussels, EDDF/Frankfurt, and EDDH/Hamburg. Total of approx 120,000 slot delay minutes in Eurocontrol system. Other high delay airports include EHAM, EGLL, EGKK, EGSS. Check NOTAMs as most are not accepting diversions either. Fog forecast to be similar again overnight.

**VTBB/Bangkok FIR** A minimum departure interval of 4-8 minutes between same direction departures is in force from 30OCT for aircraft departing VTCC VTCT VTUU VTUD VTSP VTSG VTSF VTSB VTSM AND VTSS. Delays during peak hours are expected.

**UUBC/Grabtsevo** New Russian Airport now fully operational with 2200m runway (12/30) and able to accommodate international traffic up to A320/737 size.

**UHSS/Yuzhno Sakhalinsk**, a common Polar alternate, is closed due runway repairs 1200-2100Z until 01DEC and therefore not available as ALTN for Flight Planning.

**NTTA/Tahiti** will be without radar on 03NOV after 1800Z. As with all radar outages there is potential for delays and restrictions.

**KXXX/USA** Runway current closures: BWI-RWY 10/28, SEA-RWY 16C/34C, LAS-RWY 7L-25R.

**KSFO/San Francisco** will close Taxiway Q and B on 07/08NOV to resolve a pavement issue. This will create a one-in-one-out restriction for aircraft taxiing to and from all gates west of Taxiway Q1. Specifically, this will affect United Airlines, SFO's largest customer, as a majority of its gates are west of Q1. Additionally, the proximity of the closure area to Taxiway B1 will render B1 unusable due to insufficient wing tip and jet blast clearance with the construction area. The loss of Taxiway B1 means that access to the end-around Taxiway Z will be unavailable.

**HKXX/Kenya** No longer possible to obtain a visa on arrival for passengers. Must now be arranged prior to arrival online at <https://account.ecitizen.go.ke/register>.

**SOOO/Cayenne FIR, South Atlantic** - Aircraft not FANS 1A equipped, east of 50W in the Cayenne FIR, can now expect a maximum level of FL310 westbound.

**EXXX/Europe** The European Business Aviation Association (EBAA) is providing a new tool to calculate Passenger Taxes payable in EU countries. The "PaxTax" tool calculates the total passenger tax for the flight, and breaks down the cost for both departure and arrival for the respective national taxing authorities.

**YBBN/Brisbane** New \$45m international terminal opened 28OCT after 18 months of construction. The facility can handle 7.5m pax annually.

**VNxx/NEPAL** Fuel supply update: China will supply fuel to Nepal for the first time ever, in response to a dire fuel shortage caused by disrupted supply lines with India. China will supply 1.3 million liters of gasoline, which will be transported to Kathmandu from the border via 100 tanker trucks. Please continue to check local NOTAMs for fuel availability.

**DNxx/Nigeria FIR** Widespread reports of a strike forcing the closure of Nigeria's airspace have been deemed unreliable, per the Nigerian CAA. There is unrest and occasional industrial action, but no risk of airspace being closed.

**Timezone Changes** As DST ends in the Northern Hemisphere, series of clock changes completed on 01NOV as US ended Daylight Savings. Most of Europe completed theirs on 25OCT. Most northern countries are now on Standard Time.

**View the complete International Operations Bulletin for 02NOV2015.**
