Heading to St. Kitts? Don’t go to Guadeloupe by mistake

Declan Selleck
9 August, 2016

An unfortunate naming conflict has been discovered by ATC Authorities in the Caribbean, where the waypoint **LOMPA** is the approach fix for RWY07 into St.Kitts, but also the approach fix for RWY30 into nearby Guadeloupe.

The first LOMPA is the IAF for the RNAV Approach to RWY 07 at **TKPK/St. Kitts**.

The second LOMPA is the IAF for the RNAV Approach to RWY30 at **TFFR/Le Raizet** – Guadeloupe.

St. Kitts are going to back down and change theirs to a different name, but in the meantime, watch out!
