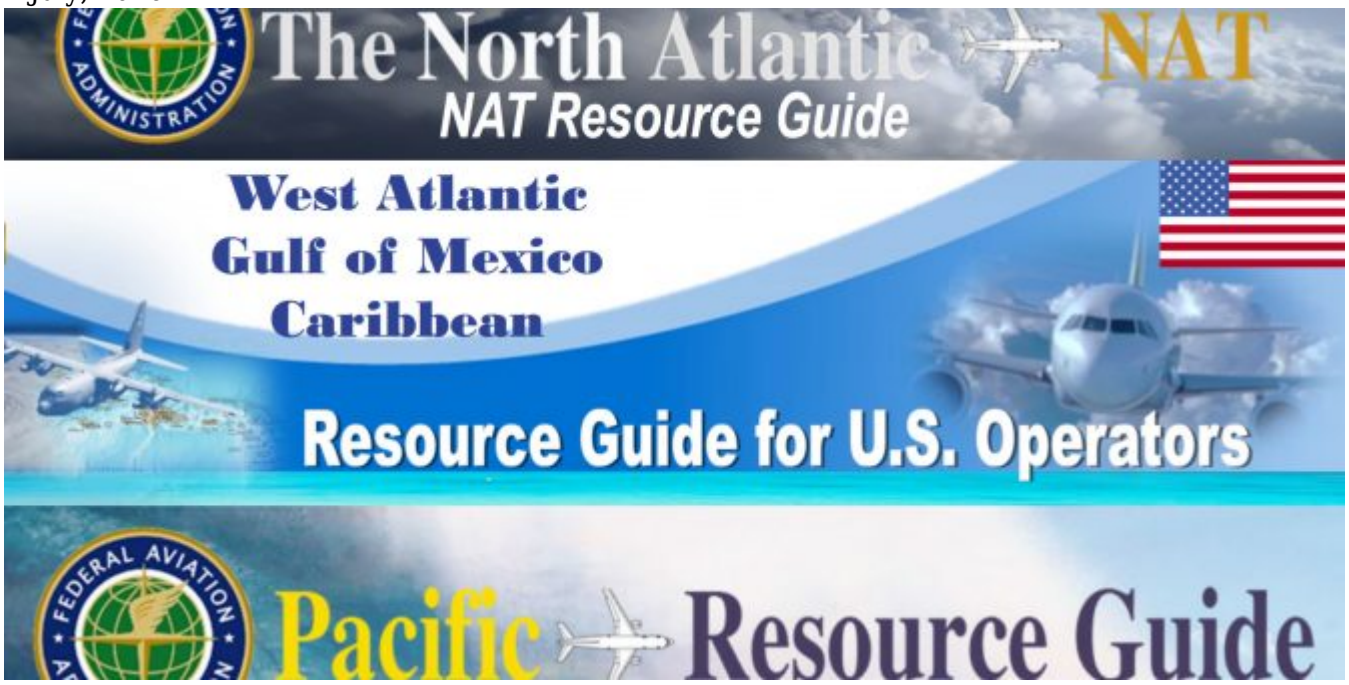
2026 Updated FAA Oceanic Guides

David Mumford
7 July, 2026



The FAA has recently updated its resource guides for the three big oceanic areas of interest:

- **The North Atlantic.** *Updated July 7, 2026.*
- **The Pacific.** *Updated April 17, 2026.*
- **WAT airspace (West Atlantic / Gulf of Mexico / Caribbean).** *Updated June 30, 2026.*

These guides are a good starting point for understanding all the basics of operating in these areas, and include links to all kinds of useful extra info around the main topics for each one.
